### Uses & Features:

Country Club MD 0-0-24, the premier homogeneous greens grade fertilizer, utilizes potassium sulfate and micronutrients to help maintain golf course turf's health and vigor. Country Club MD 0-0-24 contains sea plant kelp meal and humic acid, both of which assist the turf plant in achieving its performance potential and aids in regeneration of healthy soils. Turf treated with these biostimulants will outperform untreated turf in overall quality and playability during stressful conditions.

### Rates & Spreader Settings:

Lbs. K/ M	Lbs. / M	Lbs. Required for One Acre	Sq. Ft. Covered Per Bag
