

8.8 lb/gal (1.09 kg/l)

# Potent Sea

## Liquid Soil Amendment

# 1-2-0.5

### USE INSTRUCTIONS:

**Turf Maintenance:** Apply 4 oz. per 1000 sq ft in 2 gal. of water every two weeks throughout the growing season. On sand based soils weekly applications are very important. Increase rates during times of stress.

**Fairways:** Apply one gal. per acre in 80 gal. of water, once a month, increasing rates and/or frequency when turf is under stress.

**New Seeding:** At time of germination apply 4 to 6 oz. per 1000 sq ft in 2 gal. of water, repeating application in 3 weeks, followed by maintenance levels.

**Lawn Care:** Use one gal. per acre in 80 gal. of water, 2 to 4 times per season, increasing rate when turf is under stress.

**Ornamentals:** Blend 4 to 6 oz. in 2 gal. of water as a foliar, sprayed over the landscape every 4 weeks. Increase application frequency for stressed plants. Avoid mixing with excessive phosphorus or sulfur containing materials. Always perform a bench test for compatibility.

In Virginia, this lawn/turf fertilizer contains phosphorus and is only for nonagricultural use on (i) turf during its first growing season, (ii) on turf areas being repaired or renovated, and (iii) on turf where a soil test performed within the last 3 years indicates a phosphorus deficiency. This fertilizer is not for the routine maintenance of turf.

DO NOT APPLY NEAR WATER, STORM DRAINS, OR DRAINAGE DITCHES. DO NOT APPLY IF HEAVY RAIN IS EXPECTED. APPLY THIS PRODUCT ONLY TO YOUR LAWN/GARDEN, AND SWEEP ANY PRODUCT THAT LANDS ON THE DRIVEWAY, SIDEWALK, OR STREET, BACK ONTO YOUR LAWN/GARDEN.

### Derived from:

Kelp Extract, Fish Meal, Phosphoric Acid

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS:

### GUARANTEED ANALYSIS:

Total Nitrogen (N) .....	1.0%
1.0% Water Insoluble Nitrogen	
Available Phosphate (P <sub>2</sub> O <sub>5</sub> ) .....	2.0%
Soluble Potash (K <sub>2</sub> O) .....	0.5%

### GUARANTEED ANALYSIS:

- 55% - Organic matter (Derived from Kelp Extract and Fish Meal)
- 0.5% - Humic Acid (Derived from Leonardite)
- 44.5% - Other Ingredients

Organic matter in the Kelp Extract and Fish Meal is a source of carbon that serves as food for soil microbes. Humic acids may aid in micronutrient uptake.
