

EarthWorks™

- Six forms of nitrogen
- Provides long lasting color
- Helps build plant proteins
- Total nutrition

2.5 gallons
Apply 6 oz per
1000 sq ft

Protein Plus

14-2-6 with traces

- Available nitrogen
- Microbial and plant stimulants
- Complete trace package
- Fully chelated

Protein Plus

14-2-6 with traces

Turf Maintenance

Apply 8 ounces per 1000 sq ft (1/10th lb N) every two weeks on high profile sites like greens and tees. Increase rates based on need for nitrogen and desired color response.

Monthly Applications

Apply 2 to 3.5 gallons per acre per month on fairways or on athletic fields increasing frequency to achieve desired color.

Seed Establishment

Apply 10 ounces per 1000 sq ft every week, cutting back to a maintenance rate once turf is established.

Tank mix with EarthWorks liquid organics for maximum effectiveness.

Protein Plus can be tank mixed with most turf products, a bench test is always recommended.

General Information

Protein Plus is a new concept in nitrogen fertilization. This formula is designed to provide the plant with all the raw materials needed to build complete proteins such as chlorophyll, necessary for providing color. Only about 20% of all nitrogen is used in protein construction, the rest of these complex molecules are made up of other macro and micro nutrients and important cofactors all found in Protein Plus. Maximizing nitrogen uptake is also important and Protein Plus uses five separate sources of nitrogen to assure efficient uptake through the leaves, crowns and roots of the plant. This along with all the other essential ingredients that the plant needs to make amino acids, peptides and ultimately proteins are what makes the EarthWorks Protein Plus program effective.

Condition of Sale

1. Seller warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use. No one, other than an officer of Seller, is authorized to make warranty, guarantee or direction concerning this product.
2. Because the time, place, rate of application and other conditions of use are beyond Seller's control, Seller's liability from handling, storage and use of this product is limited to replacement of product or refund of purchase price.

Storage Precautions

Store in manufacturer's containers when possible. If not, store in polyolefin or polyethylene storage tanks. Do not store for extended periods in mild steel and only in approved fiberglass. Although stainless steel tanks are less prone to corrosion than mild steel, they are not recommended for extended storage. Do not use nylon fittings and valves. PVC or polypropylene valves and fittings are recommended.

CAUTION: KEEP OUT OF REACH OF CHILDREN

WARNING

Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat, and/or skin. Avoid contact with the eyes, skin and clothing. If swallowed: induce vomiting by sticking finger down throat. Never give anything by mouth to unconscious person. Get medical attention immediately. If in eyes, wash eyes with plenty of clear water for at least 15 minutes. Get medical attention immediately.

Keep stored above 32°F or 0°C
DO NOT ALLOW TO FREEZE

SHAKE WELL BEFORE USING
