### GENERAL INFORMATION:

TurfRx K+Ca is designed as an easy to use formulation that is compatible with most fertilizers.

### APPLICATION RATES

Application	Rate	Comments
Soil	0.25-5 gal/acre or 0.7-15 oz/1000 ft <sup>2</sup>	Inject through controlled irrigation system or spray on soil surface and water into root zone

### APPLICATION GUIDELINES

- Proper application rates and frequency should be determined by specific conditions and plant requirements.
- Apply prior to periods of high plant potassium requirements.
- Always jar test before adding to a spray tank or injection tank.
- Spray and fertigation applications should be made with sufficient water, 50 mesh screens and agitation throughout application.
- When tank mixing with other chemicals, it is the responsibility of the end-user to assure compatibility & safety.
- Poly in-line filters should be replaced with stainless steel, if possible.

**AVOID CONTACT WITH SKIN, EYES OR CLOTHING.** In case of contact immediately flush skin, eyes or clothing with plenty of water for several minutes.

**WARRANTY:** Since weather, crops, soils and other ecological conditions may vary, the seller makes no warranty of any kind, express or implied concerning the use of this product. The user assumes all risk of use and handling whether or not in accordance with directions or suggestions.
