Plants feed by absorbing soluble nutrients through their roots. Water needs to be present near the root system for that uptake to occur. Even distribution of water in the soil greatly improves the ability of a plant to utilize nutrients.

VIVAX™ 0-0-20 blends the advanced soil surfactant technology of VIVAX with potassium nutrition on a granular formulation to maximize plant health and vigor throughout the year. VIVAX moves irrigation and rainfall into the soil which reduces standing water and creates a more uniform wetting front. It also holds water in the root zone over time to increase availability to the plant during dry and stressful weather conditions.

Potassium is second only to nitrogen in terms of the amount required by turfgrass. It creates a healthier and hardier plant. Teaming it with VIVAX optimizes plant health and nutrition to provide a recipe for high performance turfgrass.

**Benefits of VIVAX**

- Less standing water
- Uniform water in the root zone
- Increased flexibility — effective across a wide range of soil and turf types

**Benefits of Potassium**

- Increased disease resistance
- Improved cold and heat tolerance
- Greater ability to endure stressful conditions

**Package Size**

- 50 lb. bag (22.68 kg)
**DESCRIPTION:** Vivax Plus Fertilizer 0-0-20 combines the new, innovative surfactant technologies in Vivax with a mini-prill fertilizer and is designed for use on premium playing surfaces on golf courses and athletic fields.

**APPLICATION RECOMMENDATION**
Use at 5 lbs. per 1000 ft² to obtain 5 ounces of Vivax Plus per 1000 ft². Spreader should be checked for accuracy and calibrated by the user. Apply every 4-6 weeks.

**APPLICATION RATES:** TURFGRASS

**APPLICATION PRECAUTIONS**
- Apply to dry turf or foliage. Irrigation is recommended as soon as possible after application.
- Remove mower baskets to minimize picking up particles.
- Keep away from pools, ponds, etc. Do not contaminate potable water.

**BENEFITS**
- Manages water across a wide range of soils and turf types.
- Effective in programs that increase beneficial soil microbes.
- Improves the uniformity of water in the turf rootzone.
- Dry application with no sprayer required.
- Mini-prill fertilizer ideal for fine turf.
- Plant nutrients for plant & soil vigor.

**ACTIVE INGREDIENTS:**
- 0.625% Alkyl Sulfonic Acid, Neutralized and Alcohol Ethoxylate
- 5.625% Polyethylene and Propylene Glycols

**INERT INGREDIENTS:**
93.75% Total Other Ingredients

**PRECAUTIONARY STATEMENTS**
Causes serious eye irritation. If medical advice is needed, have product container or label at hand. Read label before use. Wear personal protective equipment. Specific treatment is given in the First Aid section on this label or on the SDS.

**STORAGE AND DISPOSAL**
Store in a dry location in temperatures above 30°F. Dispose of in accordance with federal, state and local requirements. May be placed in household waste. Do not reuse packaging. Dispose of packaging when empty.

**APPLICATION RECOMMENDATION**
For 24-Hour Technical Assistance When Using This Product Call 1-800-323-8351

**PERSONAL PROTECTIVE EQUIPMENT (PPE)**
Applicators or handlers of this product should wear protective eyewear, chemically impervious gloves, long-sleeved shirt, pants, socks and shoes to minimize skin contact. Consult the SDS for further information.

**FIRST AID**
If In Eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.
If On Skin: Wash affected area with plenty of soap and water. Use tepid water if available. If skin irritation occurs: Get medical advice or attention.
If Inhaled: Move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.
If Swallowed: Have person sip a glass of water if able to swallow. Do NOT induce vomiting, unless told to by a poison control center or doctor. Do not give anything to an unconscious person.
